

Five ways to help your journey to Cyber Essentials

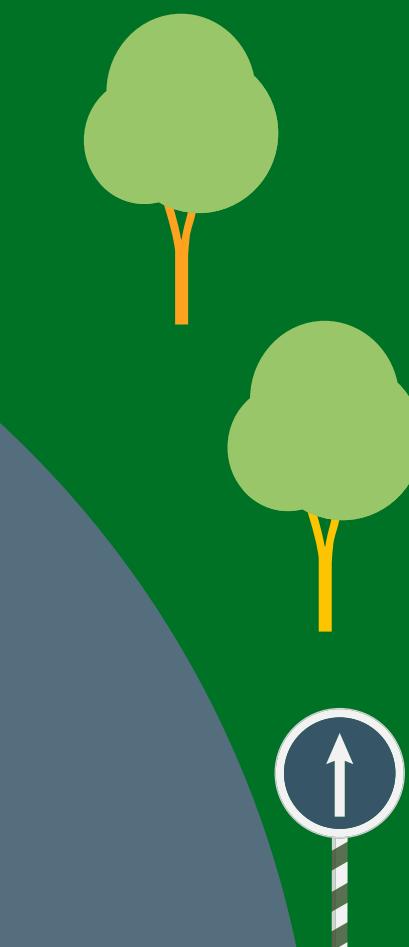

1 Use the Cyber Essentials Readiness Tool

Answer questions about your cyber security and we'll provide an action plan to get your Cyber Essentials certificate.

2 Engage our Cyber Advisors

Our NCSC-assured professionals provide hands-on support to help you meet the Cyber Essentials controls and get certification.

4 Complete the self-assessment

Answer questions about your organisation. The answers must be signed-off by a board member or equivalent.

3 Select a Certification Body

Your chosen Certification Body is licensed to assess the Cyber Essentials standard.

5 Verification

Your answers will be independently assessed by your chosen Certification Body. After passing, you'll receive your Cyber Essentials certificate.

+ Complete Cyber Essentials Plus

Once you're Cyber Essentials certified, you can choose to get Cyber Essentials Plus to get assurance you comply with the five controls.

Now you can provide evidence that your organisation has taken steps to be **protected against the most common cyber attacks**.
